United in a community in which all individuals and families reach their full potential through education, health and financial stability.

VISION
Leaders of social change, integrating the community into achieving a common well-being, by creating opportunities for a better life for everyone.
United Way of Puerto Rico has played a very important role in the development of social initiatives and the search for community welfare in our Island. To remain as leaders and continue to be a key factor in social development, we must continue to be actively involved with the communities, affiliated organizations, collaborators and social investors that we serve. Companies and corporations large and small continue to seek to improve their productivity, effectiveness, flexibility and adaptation to face the changes that impact our society. The arrival of the Millennials to the working force, the changes in the way we communicate with people, the departure of thousands of Baby Boomers, generation that supported United Way of Puerto Rico since our beginning and are still willing to continue contributing their time, knowledge and resources, are some of the challenges we will face this year.

How can we overcome such drastic changes that can threaten our position in Puerto Rican society? Developing initiatives that meet the expectations of a changing society, with a modern and efficient platform that allows us to win the hearts of our investors. Let us join our efforts, reach those large groups of people who want, like us, to achieve an educated, healthy and financially stable society. If United We Fight, United We Win. Join the United Way of tomorrow, today. I count on you. Thank you and may God bless you.

The 2018-2019 fiscal year was one of change, adaptation and great challenges for our entire community, including us as an Organization. Faced with a decelerated economic panorama, the importance of the donations received by United Way of Puerto Rico and in turn distributed to its 128 affiliated nonprofit organizations was once again evident. For some of them, our donation represented, and continues to represent, their only safe income on the 15th of each month, to continue offering services to nearly 700 thousand people in our Island. We can give them a donation, thanks to the commitment of around 100 thousand social investors who annually contribute to United Way of Puerto Rico. Their contributions, added to the support of 415 companies, collections obtained in special events and the efficient management of our budget, allowed us to comply with the granting of funds.

In times of crisis, such as the devastation caused by the passage of the atmospheric phenomena that affected our way of life, our Board of Governors, volunteers, corporations, other non-profit organizations and individuals demonstrated great solidarity towards the relief efforts and they were instrumental in declaring our plan called “Rebuilding a New Puerto Rico” a success. Thank you very much for joining the fight and making a difference in our Puerto Rican community.
United Way of Puerto Rico (affiliated with United Way Worldwide) fights for the health, education and financial stability of every person in the community. With the support of more than 4,000 volunteers, more than 100,000 social investors (donors) and nearly $11 million raised annually, United Way of Puerto Rico is the largest nonprofit organization in Puerto Rico. Our community impact extends to the entire island through our 128 affiliated nonprofit organizations, aligned with our role to create and promote sustainable solutions to the challenges facing our community. These entities provide more than one million community services directly to over 900 thousand people. United Way of Puerto Rico partners include global, national and local businesses, other non-profit organizations, governmental, civic and religious entities, along with educators, community leaders, labor, health service providers, seniors and students, among other constituents. Our main cause is early childhood supported with resources developed by the Seeding the Future (Sembrando Futuro) program for the Development of a New Generation.
INVESTMENT OF FUNDS PROCESS

The important work of the community investment of money collected by United Way of Puerto Rico is in charge of the 'Community Impact Investment Committee', made up of volunteer investors, academia and representative experts from the community. For four months, these volunteers are divided into panels, led by social investors from United Way of Puerto Rico, to evaluate the quality of administrative, programmatic and fiscal performance and the results of the programs of our affiliated organizations. The Investment and Community Strategies Department offers support to volunteers in the process of investing funds, while also evaluating the performance of the organizations that receive funds. This unique United Way of Puerto Rico process allows us to ensure that the money of our social investors is used appropriately and successfully in the community.

84% of the donations have been invested for their programs.

8% invested in Campaign costs.

8% invested in administrative expenses.

PLEDGE CAMPAIGN RESULTS AND COMMUNITY INVESTMENT

The LIVE UNITED movement acquired a greater meaning because it strengthened us as people who know how to get up from challenging situations. During 2018, United Way of Puerto Rico economically and structurally supported its 128 affiliated organizations after the passage of atmospheric phenomena that affected our way of life. With the implementation of the plan 'Rebuilding a New Puerto Rico', supported by local and foreign social investors, we managed to leave a very important legacy in our community.
HOW ARE THE FUNDS INVESTED?

With your support, in 2018, United Way of Puerto Rico invested $5,018,947 in its 128 affiliated nonprofit organizations and their programs around the Island; resources to support early childhood, help people to move from poverty to possibility with financial guidance initiatives and efforts to build a stronger community. The focus of our organization is on education, financial stability and health, as the pillars for a better quality of life for all. Based on these pillars, the distribution of funds is as follows:

**20%**

**FINANCIAL STABILITY**
Promote programs and services that cover basic needs and promote economic stability for families and individuals.

**23%**

**EDUCATION**
Encourage children and young people to reach their maximum potential and become productive citizens of the country.

**57%**

**HEALTH**
Promote physical, emotional and mental wellbeing in communities, families and individuals.
EFFORTS AND SERVICES
In partnership with Community Financial Advisors, monthly workshops are offered in areas of administration and finance for the benefit of non-profit entities, as well as workshops for members of their Board of Directors.

In partnership with the law firm McConnell Valdés, legal advice is offered, free of charge, to non-profit entities.

When you call 2-1-1, you are communicating with the Information and Referral Center of United Way of Puerto Rico. This serves as a link between individuals or families in need and the organization or public or private entity, which could help with different situations. The line has a modern computerized system that gathers information of about 4,000 private and government institutions classified by services, geographic area and population served throughout the Island. By dialing 2-1-1, you can obtain information in areas like health, education and financial stability, among others. Each call is answered by our Information and Referral specialists, who in a confidential manner take into consideration the place of residence, transportation facilities, financial resources and, above all, the need. Service hours are Monday through Friday from 8:00 a.m. through 5:00 p.m.
COMMUNITY IMPACT INITIATIVES

They focus on three areas that are essential for the human being: Education, Financial Stability and Health. Our goal is to generate changes that allow people to get closer to that level of quality of life that we aspire to.

SMART PLUS 4.0

Curriculum for 11 - 15 year olds offered as part of the Educational Program to Prevent Sexual Risks (PEERS) in Adolescents of Puerto Rico. The program is funded and administered by the Division of Mothers, Children and Adolescents (DMNA), Family Health and Integrated Services, Department of Health of Puerto Rico. The goal is to avoid sexual risks during adolescence such as pregnancies and sexually transmitted infections (STIs). The program will be carried out in public and private schools, public housing, camps and / or community centers in twelve (12) municipalities of Puerto Rico (Aibonito, Barranquitas, Cayey, Coamo, Fajardo, Humacao, Juana Díaz, Loíza, Patillas, Ponce, Salinas and Villalba).

IN KIND DONATIONS

During the year 2017, donations of this type represented $1,225,012 (including donations for Hurricane María).

FAMILYWISE

In partnership with United Way of Puerto Rico, this program provides a mechanism for people to receive discounts on prescription drugs. This benefit applies to people who do not have a medical plan, and those whose medical plan does not cover certain medications. With this discount card, we have helped more than 72,500 people and the community as a whole has saved more than $ 4.5 million in medications.
VOLUNTEER PROMOTION

GIVE A DAY (REGALA UN DÍA)

It is a high impact volunteer event where over 2,000 people come together for the common good. With great commitment and enthusiasm, in 2018, employees and relatives of 102 United Way of Puerto Rico investment companies voluntarily carried out 133 community projects for the benefit of 93 affiliated organizations. These volunteers perform tasks such as: cleaning and decoration, repairs, distribution of food to homeless people, recreational and sports activities, in homes for children, elderly and educational talks, among others. In addition, this event allows investors to see up close where their contributions are invested, knowing the programs and services that the institutions offer to the community.

WOMEN UNITED

This group brings together committed women, from different sectors and with different professions, to collaborate in the positive transformation of the Puerto Rican society. Its mission is to inspire, educate and involve Puerto Rican women towards a culture of community service and philanthropy, so that together they can promote a leadership of social change in the achievement of common well-being. Its area of focus is to promote the empowerment and leadership of females between the ages of 12 to 18 years.
SEEDING THE FUTURE FOR THE DEVELOPMENT OF A NEW GENERATION (SEM BRANDO FUTURO)

Through this initiative, United Way of Puerto Rico promotes a collective impact in the community that results in environments of care and support necessary for children at an early age (0-6 years), to develop healthy and better prepared for school. With 13 strategies in this plan, we promote the alignment of different sectors of the community, such as: Government, Church, Private Companies and Community Organizations, so that they work in a coordinated way to promote the optimal development of children in early stages.

In addition, community round tables are held to promote support for early childhood. National initiatives such as: Child Friendly City and alliances with collaborative groups such as the Breastfeeding Coalition, Association of Private Care Centers, United for Early Childhood, Alliance for the Rights of Children, Puerto Rico Human Building Research, Launch Project, Comprehensive Social Development Plan, Steam Boat Friends Committee, PRAMS Committee, Alliance for the Prevention of Birth Defects, Voices for Children, Ten-Year Education Plan, PRAYEC, SePare, among others.
The objective of the program is to train personnel working in Childhood Care and Development Centers in Puerto Rico to offer learning experiences aimed at promoting the socio-emotional development of children, through sensitive and respectful relationships. At the end of the Program, the Centers are expected to elaborate and integrate a service improvement plan focused on what was learned during the workshops, and thus generate actions that promote the care and support of children towards a favorable socio-emotional development.

The Program consists of seven workshops. Each workshop integrates teaching methods for meaningful and collaborative learning by combining lectures, working in small groups, discussing cases, among others. In addition, to stimulating the internal cognitive activity of the participants of the Program, a process of exploration, conceptualization and application is carried out in all the sessions. Through APRENDO, 1,900 principals, teachers and caregivers working in 500 centers have been trained, with an estimated impact on the lives of more than 19,700 children.
The positive transformation that is generated, when turning a passive park into an educational one, promotes the full development of the children and the interaction with their parents, relatives and caregivers, using the traditional way of entertainment as a means to insert activities that stimulate the cognitive development of their children with the use of instructive signs with figures, letters and a hopscotch painted on the floor. The United Way of Puerto Rico Born Learning initiative, which is joined by a collaborative private company, provides more families the opportunity to improve the quality of their children’s learning at an early age, a vital step for progress in school and eventually, in the rest of their lives.
Program established to prevent pediatric obesity through good nutrition and physical activity in pre-school development centers. Through activities, teachers and families encourage children to have an adequate daily physical activity and a balanced diet that contains the necessary nutrients, as stipulated by the most recent scientific data. Eating healthy has a positive impact on health by avoiding obesity. In turn, we recognize the importance of active play as a facilitator in the goal of preventing pediatric obesity among other physical and mental conditions. Active play, which implies movement, is a primordial activity in the growth and development of human beings. In addition, the games stimulate learning and help in the acquisition of social and emotional skills. The program consists of three areas: NutriExperiences, Playing and Sweating and Active Families. Each center receives a guide with the activities, equipment to implement the activities and a voucher for the purchase of fruits and vegetables. During a period of 5 to 6 weeks, they receive technical assistance visits and after evaluating the program, the teachers receive a certificate of participation.
BENEFIT OF 100% CONTRIBUTION DEDUCTION

This benefit is possible as part of the Tax Reform approved in December 2010, which promotes donations to the Third Sector. Individuals can now deduct 100% of their contributions or donations to duly qualified nonprofit entities, up to a maximum of 50% of the taxpayer’s adjusted gross income in accordance with Section 1033.15 (a) (3) of the Internal Revenue Code.

PUBLIC POLICY

The United Way of Puerto Rico Public Policy Committee is made up of volunteers from different professional sectors that help our organization to evaluate and issue reactions and/or actions to the answers that the State can give to the demands of society. These, in the form of rules, institutions, benefits, public goods or services, whenever they can go to help or detriment to the needs of our Organization and the affiliated organizations we represent. In a Rule of Law, public policies refer to different subjects or sectors: regulation, education, social development, health, public safety, infrastructure, communications, energy, agriculture, etc. It is essential to start from the needs of the Third Sector who could be directed to these public policies, to be able to carry out the implementation of real, viable and sustainable projects, for which we have the valuable expertise of each one of our volunteers.

TELEVISION PROGRAM ‘VIVIENDO UNIDOS’ / ALLIANCE WITH TELEMUNDO

Program that helps us raise awareness about the role of United Way of Puerto Rico and its affiliated organizations, as well as about the contributions of investment companies when exercising their social responsibility role. In recent years, the program has been devoted to presenting the achievements of the social sector, the philanthropic, community and social responsibility work of United Way of Puerto Rico investment companies, specifically after its annual Give A Day event.
With the mission of creating opportunities for a better life for all, we decided to continue with our advertising campaign titled UNITED WE FIGHT. UNITED WE WIN. We are aligning efforts to communicate our legacy and highlight the great community effort that we achieved thanks to the commitment of our 128 affiliated organizations, volunteers and investment companies. Our campaign encourages the philosophy that, in order to live better, we have to LIVE UNITED. United we fight, united we win. Join the fight!

United Way of Puerto Rico, in collaboration with Carnival Corporation, inaugurated several Born Learning Trails. Now we have parks on the grounds of the Children's Park of the Paseo La Princesa in Old San Juan, the Marie Lande Mathieu track in Levittown, and on the seafront of Cataño. Families in Puerto Rico will have the opportunity to contribute to the cognitive development of their children from the everyday activity of going to a park. This initiative transforms a passive park into an educational one with activities designed to stimulate the cognitive development of children with messages that parents can read from signs located through the trails of the park.
HOUSEKEEPING TRAINING SCHOLARSHIPS

United Way of Puerto Rico, in alliance with the Universidad del Este (UNE) of the Ana G. Méndez University System, the Puerto Rico Tourism Company and the Puerto Rico Hotels and Association of Hotels and Tourism Association (PRHTA), announced the availability of scholarships for training in the hospitality and tourism area. The initiative aims to support people in the search for employment and maximize the jobs already available and to emerge, in the hotel sector in the area of housekeeping.

UNITED FOR FEDERAL EMPLOYEES

United Way of Puerto Rico led a joint effort with corporate partners, local government, the United Way Worldwide network and other non-profit organizations, to help federal workers and groups affected by the 2018 government shutdown. United Way of Puerto Rico addressed these needs through a special crowdfunding campaign and a match of up to $25,000 was established. In addition, in partnership with food distribution companies, provisions were distributed to eligible federal employees. The Pharmaceutical Industry Association (PIA) made a monetary donation and the UPS Company managed all the logistics by distributing the food to different federal agencies. Through the Information and Referral Center 2-1-1 of Puerto Rico, they referred people for guidance at institutions such as Consumer Credit Counseling who offered financial advisory services.
CHILD-FRIENDLY CITY (CUIDAD AMIGA DE LA NIÑEZ)

United Way of Puerto Rico awarded the municipalities of Culebra, Carolina and Mayagüez with a recognition as Child-Friendly City, for promoting the optimal development of children, and for being sensitive to the needs of children at an early age. The Seeding the Future initiative seeks to raise awareness and promote collaborative work partnerships between government representatives, private companies, non-profit organizations and the community in general, for the benefit of children at an early age. With this award, we seek to raise awareness about the support we must provide to children at an early age in order to promote children rights.

BACK TO SCHOOL DRIVE

The Social Commitment Program in United Way of Puerto Rico and Telemundo of Puerto Rico materialized the initiative: Supporting our 2018 schools with the objective of providing the greatest amount of school materials for underprivileged children in grades kindergarten through twelfth grade for a successful start of classes. The effort benefited organizations affiliated to United Way of Puerto Rico thanks to the support of companies, institutions and people in the community. During the event, backpacks prepared with school materials were delivered to sheltered homes, alternative schools, tutoring centers and supervised assignments and more than 6,000 children and young people were impacted.
PUBLIC SERVICE CAMPAIGNS

SAFE WATER FOR HEALTHY FAMILIES

It is important for health to consume water from a safe source free of contaminants, viruses, bacteria and chemicals. Follow the advice of the Puerto Rico Department of Health, the CDC and the EPA.

Take precautions to ensure that the water comes from an uncontaminated source.

HAPPENS MORE FREQUENTLY THAN YOU THINK...

Help prevent unintentional injuries in our children.

PLAN  PREPARE  PREVENT

Then wash hands with soap and water for 20 seconds, especially after changing diapers and before preparing or eating food.

HAPPENS MORE FREQUENTLY THAN YOU THINK...

Help prevent unintentional injuries in our children.

PLAN  PREPARE  PREVENT

United Way 2-1-1 Information and Referral Service: 1-800-427-2190

expiration of payment moratorium plans are you ready?

Did you know that moratorium payment plans for mortgage loans already terminate?

Do you know the options?

Do you know the expiration dates of these plans?

Are you ready for that moment?

Help prevent unintentional injuries in our children.

Safety when using bicycles, skateboards and equipment with wheels:

• All children who ride bicycles, skates, skateboards, and equipment with wheels must wear the protective helmet and the necessary safety gear.

• The equipment must be of the appropriate size for the child who will use it.

• Verify that the bicycles have brakes, chain and tires in good condition.

• Avoid using the equipment at night and on roads or roads that have slopes.

AWARDS AND HONORS

TOP MANAGEMENT AWARD
ASSOCIATION OF SALES AND MARKETING
EXECUTIVES OF PUERTO RICO

On December 5, 2018, Samuel González, president of the United Way of Puerto Rico, was awarded the Top Management Award in the Quality of Life category "Enrique Martí Coll", award given by the Board of Directors of the Association of Executives of Sales and Marketing of PR (SME). This award is one of the highest recognition that is granted in Puerto Rico to senior executives of different disciplines whose professional and citizen achievements are outstanding.

EXCEL 2018 ASSOCIATION
OF PUBLIC RELATIONS
PROFESSIONALS OF PUERTO RICO

During the Excel Contest, held by the Association of Public Relations Professionals of Puerto Rico (ARPPR), the Excel-Public Service Category Award, was awarded to Jescel Rolón, from the Lopito, Ileana & Howie Agency, and Luz Marina Zuluaga, volunteer of the Marketing Department at United Way of Puerto Rico, for the planning and execution of the "50 Years of United Way of PR" campaign. For the creative concept of this project, Rolón was also awarded the Francisco "Paco" Oller Prize, the most important award granted by the Association.
